Profile

Experienced mobile app developer with a strong focus on building user-friendly, high-performance applications for both iOS and Android. Skilled in Flutter and React Native, with a deep passion for innovation, problem-solving, and delivering seamless user experiences.

Work Experience

Speed IT Net , Jaffna

Mar 2024 – Present

Mobile App Developer

Developed user-friendly mobile applications for iOS and Android using modern tools and frameworks like Flutter to improve performance and user experience.

Projects

Nallathu – Advertisement Platform

Flutter

- Developed a mobile application enabling users to add products and detailed product descriptions.
- Implemented an advertising feature allowing customers to view product advertisements.
- Facilitated direct communication by enabling customers to call users for purchasing products.
- Integrated user-friendly interfaces for seamless product listing and advertisement viewing.

Donation App

Flutter

- Develop a mobile application that facilitates the donation of books and tools to students.
- Enabled students to request specific books and tools they need.
- Provided a feature for students to check the availability of donated books and tools.

School Management System

Flutter

- Developed a "Student Details" page for staff to view timetables, results, and exam fees.
- Created a "Club Details" page for managing club names and positions.
- Built a "Children's Details" page for parents to access child-specific information, including teachers and timetables.
- Designed a "Results, Attendance, and Payment" page for parents to search and view their child's academic records and payments.
