Professional Summary

I'm a passionate Full Stack Developer skilled in React, Next.js, Node.js, Express.js, Firebase, .NET, PostgreSQL and MongoDB. I build dynamic, scalable web applications with seamless frontend experiences and efficient backend logic. I continuously learn and adopt new technologies to create secure, high-performance solutions. My strength lies in integrating frontend and backend systems to deliver complete, modern web applications.

Skills

- **Frontend:** HTML/CSS, JavaScript, React.js, Next.js, Tailwind CSS.
- **Backend:** Node.js, Express.js, Firebase, .NET, MongoDB, SQL, PostgreSQL.
- **Tools:** Git, Visual Studio, Postman, Bruno

Education

Institute of Technology, University of Moratuwa(Information Technology)	2021 – 2024
J/ Methodist Girl's High School	2016 – 2018

Experience

Full Stack Web Developer (Stacklint , Jaffna) May 2025 – Present

I have developed scalable full-stack web applications using Next.js, React, Node.js, .NET, MongoDB, and PostgreSQL translating business requirements into fully functional features with an optimal and modern UI/UX. I built RESTful APIs, ensured responsive design across devices, conducted thorough testing and debugging, and implemented secure authentication workflows. I am experienced in Git and GitHub, Agile/Scrum collaboration, and consistently delivering high-quality, client-focused solutions on time.

Key Projects:

Asia Securities(Next.js, .NET, PostgreSQL)

- Gathered and analyzed business requirements for securities trading systems at Asia Securities.
- Prepared Software Requirement Specification (SRS) and functional documentation.
- Worked with stakeholders to identify trading, portfolio management, and reporting needs.
- Defined requirements for stock order processing and transaction management modules.
- Assisted in implementing secure user authentication and access control features.
- Gathered requirements for real-time market data and client portfolio tracking.
- Supported database validation and financial data accuracy processes.
- Contributed to Agile/Scrum meetings, sprint planning, and requirement discussions.

PDF Management Website(Next.js, .NET, PostgreSQL)

- Implemented PDF Upload, View, Download, and E-Signature Features
- Designed a Responsive and User-Friendly Web Interface
- Integrated Secure User Authentication System
- Added PDF Search and Filter Functionalities
- Implemented Database Integration for File Management

- Enabled Secure File Storage and Access Control
- Optimized Website Performance and Loading Speed

Mobile App Developer (Speed IT Net , Jaffna)

Mar 2024 - Mar 2025

I have built cross-platform mobile applications using Flutter, focusing on clean and maintainable frontend codebases. I implemented intuitive user interfaces, applied design principles for better usability, optimized code for smoother performance, and conducted manual testing to ensure consistent experiences across iOS and Android. I also collaborated closely with designers to transform UI/UX designs into fully functional mobile applications.

Key Projects:

Nallathu – Advertisement Platform(Flutter)

- Developed a mobile marketplace with features like product listing, category browsing, favorites, and seller contact.
- Implemented user-friendly dashboards for buyers and sellers, increasing engagement.

Donation App(Flutter)

- Designed modules for requesting donations, tracking donations, and managing donor contributions.
- Enabled real-time donor-recipient matching, improving response time for urgent needs.

School Management System(Flutter)

- Built parent and staff dashboards for managing students, results, attendance, and payments.
- Created searchable records by registration number, grade, and term for quick access.

Home Service App(Flutter)

- Developed service booking modules for carpentry, electrical, plumbing, and cleaning services.
- Implemented service provider listings with ratings expertise filters to help users choose professionals.
- Built service history tracking and arrival time estimation features.
- Integrated multi-payment support, ensuring transparency and secure transactions.

Soft Skills

- Problem Solving
- Team Management
- Continuous Learning
- Team Collaboration
